

**Borough of Chambersburg Natural Gas Department Offers the Main Street Energy  
Efficiency Financing Program**  
*An On-Bill Financing Program to Residents for Energy Efficient Appliances*

*February 15, 2011 – Chambersburg, PA* – The Borough of Chambersburg is participating in the Main Street Energy Efficiency Financing Program, an on-bill financing program designed to improve energy efficiency for customers by providing low-cost financing to residential homeowners for the purchase and installation of natural gas Energy Star rated appliances to replace non-gas units.

Funds are available for residential homeowners where natural gas service is available for the purchase and installation of natural gas ENERGY STAR<sup>™</sup> residential appliances – natural gas furnaces, natural gas tank-less water heaters, and certain tank water heaters.

The Main Street Energy Efficiency Financing Program is a municipal service for citizens and customers located within the natural gas service areas of municipally-owned natural gas distribution systems.

*Structure & Requirements of Loan for Citizens*

- Maximum loan amount - \$5,000
- Loans are available for natural gas ENERGY STAR<sup>™</sup> rated furnaces and water heaters in the Borough to replace non-gas units
- Maximum loan term – 60 months
- Loans will carry a 0% interest rate
- Each loan will carry a \$3.00 per month administrative fee
- Loans require 24 month good utility bill payment history
- Loan repayments will be added to customer's monthly utility bill

Interested Borough residents should first call the Gas Superintendent, John Leary at 261-3234, or the Assistant Gas Superintendent, Jonathan Mason at 264-6385 for more details on how to apply for the on-bill financing program and to make sure natural gas is available in the area.
